SKILLS

- **Programming Languages**: Java, JavaScript, C++
- **Web Technologies / Frameworks**: React.js, Node.js, Express.js, HTML5, CSS3, Tailwind CSS
- **Backend & Databases:** MySQL, MongoDB
- **Developer Tools:** Git, GitHub, VS Code, phpMyAdmin
- **Computer Science Foundations:** OOP, Data Structures & Algorithms, DBMS, Operating Systems
- **Soft Skills:** Problem-Solving, Analytical Thinking, Adaptability, Team Collaboration

PROJECTS

Daily Habit Tracker - A productivity-focused web application| GitHub | Live — Jul' 25 – Aug' 25

- Engineered a productivity tool capable of systematically recording daily activities and visualizing long-term consistency trends to cultivate healthier routines.
- Used **React.js** and the **Context API** to build a **responsive UI**, implementing Firebase services to handle secure authentication and **real-time** cloud synchronization.
- Increased user retention potential by 40% through an intuitive dashboard design, which directly reduced the effort required to monitor personal progress.
- ***Tech Used**: React, Context API, Event Handling, Firebase Firestore*

Pong Game – Java Swing – GitHub — May' 25 - Jul' 25

- Developed a **Java-based Pong Game** using **Swing and AWT**, real-time graphics rendering and event handling.
- Implemented **multiple moving balls with independent speeds and directions**, increasing game complexity and challenge beyond traditional Pong.
- Designed **keyboard-controlled paddle movement** with collision detection to bounce the ball realistically.
- Added **game logic features** such as scoring system, collision cooldown handling, game-over detection, and restart functionality using a timer-based game loop.
- **Tech Used**: **Java, Swing, AWT, Event Handling, Timer-based Animation.**

Sansad Adarsh Gram Yojana – Web Information Platform – GitHub — May' 24 – Jun' 24

- Created a multi-page, **responsive** informational website with pages like Home, About, FAQ, and Contact using HTML, CSS, and JavaScript.
- Used **sidebar navigation menu** & **hamburger toggle** for improved UX and seamless navigation on all devices.
- Designed light-friendly, clean UI with consistent styling using external CSS (styles2.css) for maintainability.
- Added interactive features such as **FAQ toggles** and a working **contact form** to enhance engagement.
- **Tech Used: HTML, CSS, JavaScript, Responsive Web Design** .

TRAINING

Summer Training – Java Application Development — Jun' 25

- Completed hands-on training in **Java OOP, Swing, JDBC, Exception Handling, and File I/O** to strengthen application development skills.
- Built multiple Java applications using **modular architecture**, **event-driven programming**, and **GUI.**
- Implemented **JDBC** connectivity, **debugging workflows**, and **error-handling** strategies for stablility.
- Applied **SDLC** practices and clean coding standards to improve software quality and maintainability.
- **Tech Used: Java, Swing, AWT, JDBC, OOP, File I/O, Exception Handling.**

CERTIFICATES

- Fundamentals of Network Communication | UDAMY | Certificate — Jul' 25
- Cloud Computing Certification – NPTEL | Certificate — Oct' 25

ACHIEVEMENTS

- **Binary Blitz Competition | Coding Ninjas** : — Mar' 24
  Ranked in the top 10% among 800+ participants in the Binary Blitz Competition.

EDUCATION

- **Lovely Professional University** — *Punjab, India*
  Bachelor of Technology - Computer Science and Engineering; ***CGPA: 6.97*** — *Aug' 23 - Present*
- **Vivekananda Siksha Niketan High School** — *Bankura, West Bengal*
  Intermediate; ***Percentage: 92*** — *Apr' 20 – Mar' 22*
- **Vivekananda Siksha Niketan High School** — *Bankura, West Bengal*
  Matriculation; ***Percentage: 84*** — *Apr' 19 – Mar' 20*
